

PARIS AIR SHOW: SUMMARY OF AIRCRAFT ORDERS

July 2007

The 47th International Paris Air Show, held in Le Bourget, Paris, on 18-24 June 2007, reported a total of 810 aircraft order announcements. Airbus captured the majority of these orders, with 744 aircraft orders from 25 customers. On the other hand, Boeing acquired 66 aircraft orders from two customers and Embraer acquired 20 aircraft orders from one customer. It is notable that although the A320 was the best seller at the Paris Air Show, the previously slow-selling A330 managed to retain a significant 129 orders. Details on the announced orders are shown as follows:
