

Entry Level Airport Planning Analyst

InterVISTAS is seeking highly a motivated and passionate entry level analyst to join our growing aviation consultancy. Responsibilities of the entry level analyst would include providing technical analyses related to terminal, airside, and ground transportation planning and operations for major airports. Roles may include terminal facility planning and design, ground transportation (roadways, parking, and transportation network companies) analyses, rental car facility design, demand and capacity analyses, airfield and airspace analyses, and master planning.

Minimum Qualifications

- Graduate degree (or undergraduate degree with two or more years of relevant experience) in civil engineering, transportation engineering, industrial/operations engineering, or related field
- Strong analytical and problem-solving skills
- Proficiency with AutoCAD
- Organized and detail-oriented
- Excellent verbal, written, and interpersonal communication skills
- Ability to build strong relationships with clients
- Self-motivated and resourceful as well as collaborative and team-oriented
- Proficiency with Microsoft Office (Excel, Word, PowerPoint)

Preferred Qualifications

- Up to five years of related experience in airport planning, civil engineering, or related aviation industry experience
- Experience with microsimulation tools such as VISSIM, CAST, or *runway* Simulator
- Experience with GIS and 3-D modeling software such as Revit or Sketchup
- Experience with data visualization (e.g., Tableau) and analysis of large data sets

Location and Travel

This position could be based in Boston, Denver, or San Mateo, CA (San Francisco Bay Area) and may involve occasional travel to client sites, with additional travel required with increased experience.

About InterVISTAS Consulting

InterVISTAS is a full-service international airport consulting firm providing expertise in airport policy, aviation forecasting, airport economics, tourism, air service development, and airport planning. Since its inception in 1997, the firm has completed projects for 500+ clients globally, including virtually every major U.S. airport. InterVISTAS is a wholly-owned subsidiary of Royal HaskoningDHV, a global engineering firm.
